

IMPLANTABLE MEDICAL DEVICE – Medical Coating

PROJECT PROFILE

Industry: Healthcare

Image:

Description:

Automated material handling, tracking, and coating unit for implantable medical device.

Services Provided:

- Design/Engineering
- Project Management
- Manufacture
- Installation
- Training

Major Equipment Provided:

- (2) G-Axis Robots
- Machine Vision System
- Zero Back Pressure Conveyor
- Spray Station
- Trim Station

Highlights:

- 80+ Sku(s) Run-On-System
- Class 1 division 1 Explosion Proof
- Improved Product Consistency
- Class III medical device
