

**INDUSTRY:** Pharmaceutical

**DESCRIPTION:** Integrated Systems That Handles Containerized Products and Processes Them Through Various Automated Tanks containing Chemical Solutions

**SERVICES:**

Project Management  
Concept Generation  
Design/Engineering  
Manufacturing  
Fabrication  
Integration  
Installation

**HIGHLIGHTS:**

Clean Environment—Stainless Steel and other non-corrosive materials used  
Large-Envelope Articulated Robots  
A/B Control System withMMI  
Multi- Unit, Multi—Installation Program
