

# Electro-Mechanical Equipment Contract Manufacturing Services

Global Supplier of Manufacturing Services

## About Us

Keller Technology provides world-class contract manufacturing solutions for complex, high precision, electro-mechanical machinery, equipment, and instruments. We offer manufacturing services for turnkey equipment as well as high level assemblies (HLA's) in the low to medium volume range.

Our highly refined project management system backed by an ISO certified Quality Management System (see below) and coupled with extensive capabilities and experience, ensures the success of your outsourced manufacturing program.

Whether you have exceeded your in-house capacity, require value added services, or your strategic plans call for outsourcing machinery production, Keller can help.

## Expertise

- ▶ Prototyping
- ▶ Concept/Design Completion and Engineering support
- ▶ Industrialization of Designs
- ▶ Revision Control
- ▶ DFM/COGS Reduction
- ▶ Global Procurement
- ▶ Vendor optimization
- ▶ Next-generation design
- ▶ Precision Assembly
- ▶ Clean room assembly
- ▶ Heavy Assembly
- ▶ Inventory Programs
- ▶ Functional Testing
- ▶ JIT Deliveries
- ▶ Custom Tailored Programs
